Solutions for temperature monitoring

Temperature is an important factor in all of our lives, supporting safety and quality in every field and category of business. Temperature monitoring is indispensable in fields such as process control, quality assurance, maintenance of machine/machinery, distribution, and infrastructure.

Product Features

Lamination

Laminate protects the indicator from dirt and water.

Self-adhesive

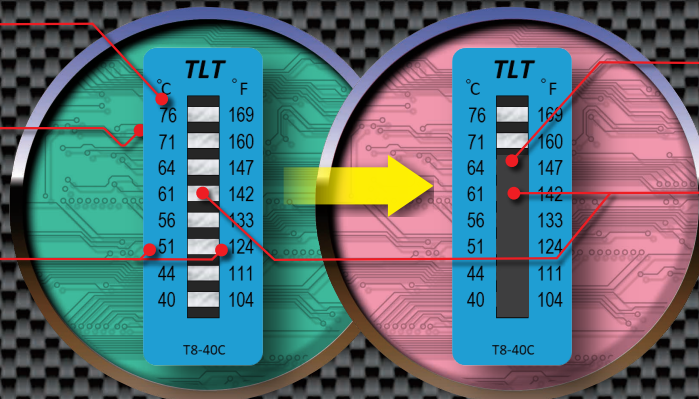

An adhesive on the reverse side allows the Temperature Label to be easily applied.

Dual temperature scale

The Celsius scale is easily noted and the corresponding Fahrenheit scale is also displayed.

Before

After

Non-reversible

Once the temperature rises the temperature indicator does not return.

Indicator

As temperatures rise, the indicator will immediately change from white or gray to black.
